Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 86/00013 to Puri.

Example 3 A of WO discloses a reducing composition comprising by weight 11 % of ammonium thioglycolate, 1 % of non-ionic surfactant, 0.2 % of perfume, 0.2% of disodium ethylene diaminetetracetate, 0.5 of opaquing agent, aqueous ammonia solution to pH .3 and deionized water to 100 %. The solution was applied to the skin of a test subject and after 5 minutes the skin was rinsed and dried. WO describes that the composition had a greatly improved feel and that a similar effect was achieved when the nails on one hand of a test subject were treated in this way, by comparison with the nails on the untreated hand. The perfume of the above example reads on instant deodorizer. The limitation "for correcting a deformed nail or modifying the structure of a nail modification" denotes future intended use. The ability to soften nails is inherent to the composition of WO. Thus, WO anticipates instant claims.
